Letters To The Editor

REPLY BY DISGUISED

To Editor, Chauvin Chronicle:

In a recent issue of the Chronicle there appeared a letter from an Edgerton correspondent, purporting to be a reply to Disguised.

I say purporting advisedly, in that as an answer it looked as if the gentleman was barking up the wrong tree. He makes no effort to answer the plain questions viz: "Did Mr. Spencer really believe in establishing a precedent which favors the policy of side stepping the extant law to please a few of the voters in his constituency?" Or was it through fear of the result that he sponsored that petition?

Instead he barked the weakness of his stand by trying to draw the red herring of the iniquities of the War hoping thereby to divert public notice from the fact that Disguised's question concerned abuse of alien citizens as little as it concerned the entrance into Canada of Somebody or other a pet rabbit! Of course this is but another evidence of the side-stepping tactics of the average U.F.A., and quite to be expected, as were also the hallucinations on all outside his class with which your correspondent opened fire. But in the meantime the question has been answered by Mr. Spencer himself in his address to the members of his constituency.

He says "It is more than I can say that he says 'Ho'd do again!'" That is conclusive enough even if the weak bravado of the confession gives some of us long long thoughts.

Is this the form of backbone that H. W. Wood was boasting about when he told them his 12 apostles and announced they wasn't Jones amongst them?" If so, we don't think much of H. W. Wood's taste in backbone. A jelly fish could do better than that!

That point being settled, we come to the place where the Edgerton writer complains that "It is hard to understand why Mr. Spencer's enemies should call him 'how controlled'." That's easy! Can it be that the gentleman is not yet versed in the dogmas of his own party platform?

Let me refresh his memory, with a few of them—"Our organization is continuous in authority and while it is we formulate the declarations of principle or we call the platform these are at all times subject to change by the organization" (note who changes the platform) Again, Clause (3) "We endorse the principle of the referendum, the initiative and the recall." Or as follows—"Thus organized citizenship of the U.F. is the vehicle, not only of intelligent voting but also of intelligent guidance of elected representatives.

Not boss controlled, with all that machinery provided to keep him under the 'intelligent' guidance of an organized citizenship! Well, if he isn't, 'the Bosses' must be neglecting their prizes."

One fears your correspondent is not so well versed in the idiosyncrasies of his party's creed as he should be. For further proof is needed of the power of the bosses we have H. W. Wood boasting every now and again to Calgary and Edmonton audiences that the big difference between his group and the old party is in the fact that the "top" is now ruled from the "bottom." Though I confess it looks rather like the U.F. leader was having a joke on the faithful at the top, when he insists on the bottom.

Dr. Leslie Cox Is Member of New Firm Mackenzie & Cox

Dr. Leslie C. Cox of Edmonton was admitted to the Alberta bar Monday morning by his Honor Mr. Justice Simmons. Dr. Cox was presented to his honor by C. C. McCall, K.C. Mr. McCall in presenting Dr. Cox stated that he had known Dr. Cox for some time and in his opinion there was no doubt a good future ahead of him in the law practice. The educational attainments of Dr. Cox before entering upon the study of the law were stated by the speaker.

Mr. Justice Simmons highly commended Dr. Cox for taking such high standing academically before entering into the study of law and hoped that he would do his best to uphold the standards of the profession in every respect.

Dr. Cox was born at Bowmanville Ont., and graduated from Toronto University, with B.A. degree in 1912. From 1913 to 1917, was an Edmond Law Rogers fellow in the John Hopkins University, taking the degree of Doctor of Philosophy in classics in 1917. For 1917 to 1919 he was a Hamilton, Ont. man. From 1920 to 1921 Dr. Cox was an instructor in Latin at the University of Alberta.

He was first called to the firm of McKay, McDonald and Wells and later to the firm of Friederman and Lieberman of Edmonton. Dr. Cox will practice his profession at Wainwright in partnership with J. A. McKenzie, the firm to be known as McKenzie and Cox.

(Continued from last column)

tom being the real ruler, in view of the generally accepted fact that the drops fall to the bottom!

At any rate it is an unkind institution, which hits both top and bottom equally, and one of these days when the U.F. member sets up his individual thinking machinery again the U.F. leader will doubtless say for it with his head. But in the meantime whatever his estimate of the ability of the "bottoms" legislative events would tend to indicate that all unwittingly he sized up the need in the elected representatives of "intelligent guidance" from some source or other.

Jack's little premature that, in view of the pettishness shown during the session, and the regular man size gift of "grabbing" that they showed just a month ago or so!

Looked like the Premier had been counting the cream cheese, before the cream had been "Babcocked"—to use a homey simile. And I miss no guess if the skim milk business will be as evident in the opposition as in the "intelligently guided" if some thoughtless speaker should mention the abortive wheat Board indemnity during the coming session.

But reverting to the group idea, by which the U.F. member is sent to Edmonton or Grains merely to represent the convention which elected him,—Where Parliament a Trades Union Congress in order to represent his trade or class as against any other.

GARDENING

FALL NOTES

(By a Local Gardener)

Annual plants, pet flowers, tomatoes etc., after they have died down are a harbour for insect pests, and, along with other garden refuse, should be gathered into heaps ready for burning when thoroughly dried.

If the ground is dry, and plenty of water available Rhubarb roots ought to get a good soaking before freezing, they will make a more vigorous growth in the spring and be less likely to run to seed. As soon as the ground is frozen much to a depth of six inches with maple.

A thorough watering is beneficial to all trees, bushes or perennial plants just before the freeze up.

Strawberry plants. If the situation is wind swept place brush so as to collect snow over the plants. As soon as the ground is frozen much with a layer of short manure or straw about six inches deep, which should not be removed until growth has begun in the spring.

Hardy shrubs. As next year's fruit is borne on this year's wood to prevent it being damaged by severe frost bend the tops of canes down to the ground without breaking, in line with the row and cover with high earth or straw.

Current bushes. Mulch heavily with manure, and protect with straw.

SUITABLE FLOWERS

PAEONY. A family of perennial herbaceous plants which find a favored place in most of the important gardens in Great Britain and are fast becoming a general favorite in Canada.

They produce numerous large and beautiful flowers in a great variety of shades and colors from deep crimson to delicate pink. They grow from two to four feet high; have a bush habit of growth and require a considerable space.

The cultivation is simple and they will grow well in any ordinary soil but for best results they require a deep rich loam, deeply dug with a liberal supply of well rotted manure added.

Roots should be obtained in the fall and planted in clumps of from three to six: roots three feet apart each way, not later than October.

In planting keep the crown of root not less than four inches below the surface. When the ground begins to freeze protect with a covering of short manure about six inches deep, which should not be removed until frost is well off the ground.

LILY OF THE VALLEY. Its beautiful flowers are as well known as that a lengthy description is unnecessary. To those who are not familiar with it I would suggest they give it a trial this winter. It can be grown for early spring flowering indoors or in the open, coming into bloom as soon as the snow has gone.

The supply of crowns and pipe for soil, plant, say, six crowns in five inch pot or box. For successful flowering it is necessary that the crowns be exposed to a temperature a few degrees below freezing for a period of from two to three weeks (Continued on foot of next column)

When the roots will have become matted and require to be divided up. In planting, keep crowns about three inches below the surface. Any good garden soil, preferably a sandy loam is suitable. In the fall mulch with manure.

Merton School Fair

The annual Merton School Fair was held at Winona School on Labor Day last, and although threatening was in full swing, a large and interested crowd of pupils and parents were present. The seven schools in the association put up a remarkable number of exhibits all of which showed an improvement over last year. The Frost in June hit the vegetable section very hard, but the exhibit was a splendid one for all that. Serton Park carried off the first prize in the inter-school competition. Norman Heath and Olive Ambler, the two exhibitors, both having excellent collections. A very large number of entries in the classes of school work, made the judging a very long and difficult task, and the same conditions applied to the sewing. The exhibit of everything looked as good, one envied Judge her job of tasting each dish. There were over twenty entries in the class for bread, in which Annie McVinnie of Clare School carried off first prize. The classes in Grains were all well filled, and showed good work on the part of the children. The live stock classes, in which a large number of exhibits were made. Myrtle Connonore carried off first prize in the beef calf class and Mildred Connonore came first with her dairy bird. Ruth Henton.

Laughton's and Mrs. J. H. McVinnie's Clyde cut away with first in the heavy draft class, and also in the Wm McDonald special. Her Clyde yearling took first prize in the yearling draft class, and also first in the Warren special. In the Agricultural class first went to Joe McLean, while the yearling agricultural went to Jack Warren, who also took the Adam McDonald special. The Carson, Dunn & Henton special prize for Fitcher colts. First in spring colts went to Anna Spende, and in the yearlings to Alwyn Elliott. In a large exhibit of chickens, first in light egg type went to Mary Henton and utility type to Verda Griffith. In the Geo. Dunn special first in Wyandottes to Alwyn Elliott, and first in Leghorns to Ethel McLaughlin. First in lambing went to Jack Warren. In the inter-school competition Crosslynde took first in both insects and plants, Clare School taking first in Noxious weeds. The Diploma presented by the Dept. of Agriculture was again won by Crosslynde, with Oxydile and Claire in second and third places. It was a fine exhibit all number of senior pupils made an ex- through, and Claire, with its small excellent showing. The sports, under the direction of Mr. D. L. Bennett were run off very smoothly and were well contested. Too bad the Oxydile teacher was barred in the lady teachers' race. Mr. Henderson's committee supplied large quantities of excellent tea and coffee, as well as taking care of the judges etc. We hope to publish the prize list next week.

Notes From North East

Things began to look quite wintry last week, but it will all help fall plowing if we get some good weather now.

The district convention of District No. 13 of the Sask. Grain Growers Association will be held at Cut Knife, on Wednesday, October 25th. There will be a special representative sent down from Central, so the delegates from the various locals can look forward to a good and profitable time.

Mr T. Graham, of Unity, the genial field supervisor of the S. S.B., was through our district last week.

Mr Harry Gibard proposes taking a trip to the Old Country in the near future. It's lucky to be some people.

Mr and Mrs Kennedy have come to reside in Artland. Mrs. Kennedy is a sister of Dave Alston, and recently resided in Taku.

Hard luck, Walter! To start threatening the day before the snow came.

What's on the boards for Armistice day, this year. At any rate we hope to see everybody wearing poppies.

Melville Lavold is in receipt of his royal medal. We knew that he had passed his high school entrance, but to find he won the Lieutenant-Gov-

ernor's medal was an additional pleasure. It brings honor to the district, Prosperity school, the teacher, (Mr. Miller), and in fact to all concerned.

One hears a great deal these days of the new great? colonization scheme, and its advantages? Don't you think there's another side to the question, Mr Editor.

Mrs T. R. King was visiting friends up north for a few days last week.

The Fram G. G. A. are looking forward to a very pleasant and instructive winter's programme. Special features will be introduced, and every-point to a richly successful season.

Your editorial comments last week just came at the right time. Things are bad, but they might be a lot worse and your remarks give us the necessary "pep" to work and hope for better things.

Court Set Aside

Twa Transfers Of
Land And Stock

Chief Justice Hillyer gave sentence in the supreme court on Friday in an action by the Bank of Montreal at Edgerton (formerly the Merchants Bank) against J. H. Drennan and S. H. Drennan. The bank had obtained a judgment against J. H. Drennan last January, upon a note for \$3,000 and had issued execution, but shortly before this was done, the defendant had transferred to his brother S. H. Drennan, a quarter section of land, (the N.W. quarter of 34-47-2-4-10) and also 75 head of cattle. In July the sheriff made seizure of about 150 head of cattle, and S. H. Drennan claimed these cattle as his as well as the land above mentioned. The bank then brought up in court the question of the ownership of the cattle and at the same time moved to set aside the transfer of the land, as having been made for the purpose of defeating the bank's claim.

At the trial both the Drennans, and also two additional witnesses gave purchased the land from his brother on November 2 for \$1,500, that he had purchased the 75 head of cattle by bill of sale on December 10 for \$2,000; that both these purchases were for cash, and that the money had been paid over in the presence of the witnesses. But cross-examination revealed other circumstances in connection with both the deals. On the whole evidence the chief justice found that the alleged purchases were not bona fide, but were made for the purpose of defeating the claim of the bank, and he gave judgement accordingly with costs.

G. B. O'Conner, K.C., and H. C. Boyd of Edgerton were counsel for the bank and W. A. Wells of Mackay McDonald & Wells, for the Drennans, been paid over to witness J. H. Drennan. —Edmonton Journal.

of the year, and many have already made plans to reach their friends in time for the Christmas and New Year Season.

Canadian Pacific Steamships are desirably popular for this trip and to give extra special accommodation for those who are going overseas this season, the Canadian Pacific Railway has arranged for a special train to connect with the S. S. "Montclair" sailing from St. John, Tuesday, December 12th. Through tourist sleepers will be operated from Edmonton at 10.00 p.m. Thursday, December 7th, and from Calgary at 11.35 a.m. Friday December 8th, making connection with this special train leaving Winnipeg 9.20 a.m. December 8th.

Special tourist sleepers from Calgary, Edmonton, via regular trains will also be operated in connection with the sailings from St. John of the S. S. "Montclair" on December 1st, S. S. "Victoria" December 7th, S. S. "Melitta" December 8th, S. S. "Metagama" December 15th.

All these tourist sleepers run right to the ship's side, no changes, no inconvenience. They are the gang plank to the steamer.

Letters To The Editor

(Continued From Front page)

er. To do so, would merely be playing fair to the branch union, or local which sent him, and which pays his expenses as delegate. But with an M. P. even (one of the group variety) the case is, of necessity, different. Seeing that down at Ottawa there is no official recognition of this group nonsense, and the levy for seasonal indemnities is therefore made on all the people in the constituency, not merely the select few who are allowed to have a hand in nominating him, and in guiding him "intelligently" (great word this! afterwards!) This being so the average person just naturally expects to get at least a little for his money. Besides does not one of the planks of the U.F. platform demand that there should be equal rights to all, "and special privileges to none"? Of course the intrusion of the group idea, turns the Equal Rights part of it into a screaming farce, and what we would prefer would be for Mr. Spencer to be straight forward down at Ottawa and tell them the limit of his powers, then we could not be held responsible for his "peculiarities in regard to that petition."

As it is, we have Mr. Spencer, during the provincial election publicly announcing himself as 100 per cent being the preferred brother elected on a strictly class platform. But when his own turn came to take the turn, strange to say he wasn't so strong on putting forward the class part of the platform. Neither did he mention while asking the votes of all and sundry, that he felt it his duty to tell them the no matter whose votes put him in power, he was only responsible for his acts to a group convention, while as regards the paying of his seasonal indemnity probably he forget all about anything so mundane as that! It's a way our U.F. legislators have, you may have noticed.

But then after the tumult and the shouting was over, and the count was overwhelmingly U.F.A. Mr. Spencer evidently came back to the 'group' fold, for we have Leader Wood cutting heads and calling them his chosen twelve, and boasting there wasn't a Judas among them! That is to say they were all going down at Ottawa pledged to the group idea, as formulated in the provincial platform. Next to the original Farmers' platform known as the Progressive or open door policy. If we mistake not Mr. Spencer also declared himself behind Wood and his ideas versus Cramer and his, about the time of the first caucus. It's a hard life and uneasy lies the head of the M. P. who tries to put across the theories of the Missouri mesmerist! Meanwhile it is rather interesting to read what the New York Times has to say about this group idea which has tickled the fancy of the Western U.F.s. Assuredly if any country knows the price of allowing group-bosses—Tammany rings and the political crooks to get a hold on its economic and political life, it is the United States. Here is its comment:

American Group Evil
(New York Times)

"There are obviously certain things for the electors to drive at directly. They must seek to restore the authority of party, and to raise the level of intelligence among members of congress. They must fight government by groups, as the root of growing evils. In a word, they must endeavor to elect a congress in which there

shall be no blocs at all and as few blockheads as possible."

No blocs and-as few blockheads as possible. That's the stuff for Canada also, else must we still sign ourselves—DISGUSTED.
